A good piece of advice is to not go looking for malware for free. If you are looking for it, then you do not need to search high and low. You are not the only one in that predicament. If you cannot afford the time or money to do that, then donâ€™t waste your money by playing their game. That is my honest answer. And I cannot say anything more on the matter. I had no idea. I would not mind doing this, but I cannot really help you, not without more information. thanks for reply :) i did not ask for a free wordpress site but you got me thinking about that i found my site in a link on a site where there are many links full of junk sites that are not my kind of content so i dont want to put the effort in to reg so i just thought i would try to get rid of it just my thoughts :)thanks again Posted on Oct 13, 2019. I think it might have been the POI builder that I was using. My POI builder didnâ€™t work properly so when I did the mapping, you are asked to save it, that is where this is coming from.
