The songs itself for this game are truly amazing. It's fun to listen too, and fits gameplay perfectly, but whilst playing the game I got so hooked to the game I wanted to listen to them on my phone, so here I am. After buying It I thought where the soundtrack was saved too, and if your wondering the directory is: "C:\Program Files (x86)\Steam\steamapps\common\Rubber Ducky and the Rainbow Gun\Soundtrack". The music is great and I recommend buying this, and the game.
