Memory: 4 GB RAM

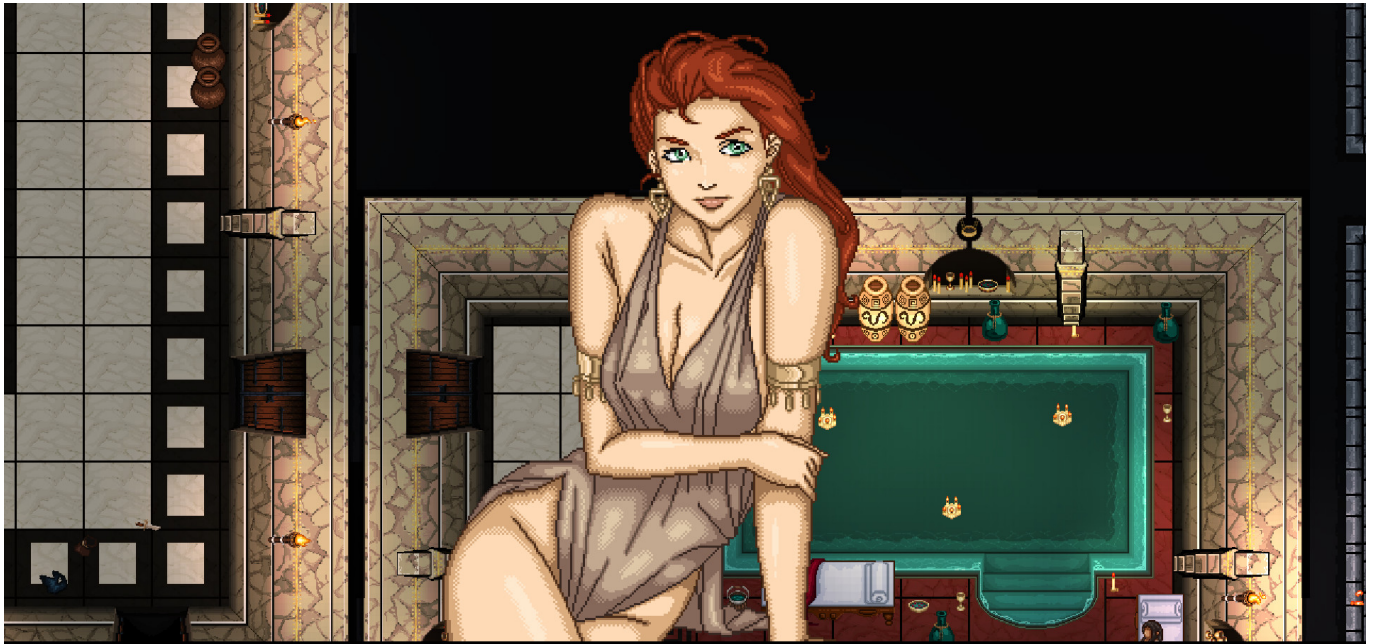

Graphics: 1GB

Storage: 300 MB available space

English,French

Kairus' sellswords are on their toes tonight!

Cool developement of BoI concept.. except it's unplayable. The most dangerous threat in those dungeons are.. walls themselves!
No enemies can compare, for any stone sticking out of the floor can end your run as you touch it - you just stick in place & can't
move no more.....
